Against Anglo-American Seizure of Dutch Shipping

NOTE WAS HANDED TO SEC. LANSING

United States, It Claims, Did Not Answer Original Objections

Washington, D. C., May 22.—A supplementary note of protest against the British and American seizure of Dutch shipping has been handed to Secretary Lansing by the Dutch legation here. It contends that the United States in its explanation of the seizure did not answer the original objections made by the Dutch government.

YOUR LIVER NEEDS

Stirring Up and Stimulating in the Spring.

Its sluggish lack of vigor is a large factor in causing the dullness, depression and weakness that hang on to you like lead in your shoes from morning till night.

Hood's Pills are the best liver stimulant and family cathartic,—best because they do their work well and do not deplete the blood like purgative salts and waters, which often leave a woeful train of catarrhal discharges that are unnatural and weakening.

Then you may get the splendid blood-enriching qualities of Hood's Sarsaparilla and the iron-building effects of Peptonin into the combination, and the three medicines working together give the grandest health-uplift it is possible to have from medicine.

Any one of the three medicines will do you good—the use of all three will accomplish wonderful results for you. Try this treatment this spring.—Adv.

BEEF STOCK HIGHER

Demand Very Keen and Supplies Moderate—Calves Firmer, Hogs Unchanged.

Brighton, Mass., May 22.—All beef stock prices were pushed up a little at the Brighton stockyards yesterday, the demand being very keen and supplies moderate. Calves also were firmer, especially for the better grades, but small calves and low-grade stuff was not changed. Hogs were quoted on the same basis as for several weeks.

Beef cattle were scarce at the Brighton yards yesterday as the eastern train did not get in until afternoon. Best beef cattle were quoted at 13@14c for average tops, fancy steers readily bringing more than this when they were to be had. Good cattle are quotable at 10@12c, and light cattle at 8@10c. Good, fat beef cows readily bring 10c@11c; something fancy sells at even higher figures than this. Good cows sell at 9@10c, ordinary cows at 7@9c, and canner cows at 6@8c. Prices on beef bulls range from 7½@10c, according to quality and condition, average stock bring around 8c, andologna bulls 7@7½c.

Fancy veal calves were somewhat higher than a week ago, the best stock in small lots selling at 16@16½c, with bunch lots at 15@16c, fair lots at 14@15c, small calves at 10@12c and grassers and drinkers at 8@10c.

Good hogs were rather scarce in the Brighton market, and prices steady at 17½@19c, and occasionally a little more for a fancy lot, though such are scarce. Rough lots were selling at 17@17½c. Dressed hogs are still quoted at 22½@23c, by the Boston packers, the same as for several weeks.

No change is noted in the milk cow situation. The demand is fairly good and prices are well sustained. Quotations run from \$50@575 for ordinary milkers to \$150@175 for fancy milkers, sales being made all the way between these extremes, according to the quality and condition of the animal.

THE TREATMENT OF PRISONERS

Suggested Conferences Received in Silence by Germans but Marked Improvement in Case of Prisoners.

Washington, May 22.—The United States government, through the Spanish embassy at Berlin, has suggested to the German government that a conference be held at Berne to discuss the treatment of prisoners of war held by the two nations. No reply has been received to this proposal, the state department said yesterday.

The British, French and, most recently, the Italian governments, have entered into similar conference with German officials. These meetings have resulted in marked improvement in the treatment of prisoners of war. It was said here yesterday that no specific reason existed for asking the conference at this time.

IN SERVICE AFTER 43 DAYS.

Coastwise Steamer Tuckahoe Makes a Good Record.

An Atlantic Port, May 22.—Exactly 43 days after her keel was laid at Camden, N. J., the steamer Tuckahoe, a record ship, arrived here yesterday with a cargo of coal taken aboard at a south Atlantic port. No attempt at speed was made on the maiden voyage, although officials reported that the vessel came through in fine style, with her machinery working to perfection.

As the Tuckahoe steamed up the harbor other craft recognized her and gave her a noisy greeting. She turned and swung easily into her berth and the work of discharging the cargo was carried on at a clip that would have brought cheers from the builders who turned her out in 37 days.

The Tuckahoe probably will remain in the coastwise trade for some time, it was said.

This is in line with the recent lowering of marine insurance rates on vessels and cargoes from 3 to 2 per cent.

Camouflage Clothing

Camouflage clothing looks like what it is not. It is an imitation of something that is real. It is "store window clothing"—fairly good for display purposes, but not built to stand the rigid test of wear.

It is sometimes hard to distinguish between artfully camouflaged clothing, made from cotton adulterated fabrics, and real clothing made of all wool. There's a way of knowing.

The Hart Schaffner & Marx label in your clothes is a guarantee of all wool fabrics. You want this kind of clothes because they are real economy—they wear longer and hold their shape and color-newness.

Hart Schaffner & Marx clothes offer a genuine investment opportunity, backed by the Honor Pledge of "The Store with a Conscience"—that is your guarantee of better values, better merchandise and better service.

This summer, practice sane clothes economy.

Figure your clothes expense by the year rather than by the suit.

AMERICANS WON BRUSHES

Two German Patrol Parties Were Defeated East of Luneville

TWO PRISONERS WERE CAPTURED

Great Activity in Minor Operation Has Been Reported

With the American Army in France, Tuesday, May 21 (By the Associated Press).—In lively patrol actions Monday night and this morning east of Luneville, German parties were twice defeated by the Americans, who captured two prisoners.

An officer and 20 men while exploring the area northwest of Anceville, east of Luneville, sighted four enemy patrols and established contact with one of them. The enemy party, numbering 16, took up a position in an unused trench, from which they were driven by the rifle and grenade firing of the Americans. The Germans were then rushed by the Americans, who took two prisoners, one so badly wounded that he died later. There were no casualties on the American side.

Four hours later an enemy patrol made a bold attempt to rush one of our outposts, but was driven off. One German was killed and his body was brought back to the American lines for identification purposes.

Northwest of Toul an American patrol traversed the Apremont road and found a high tension cable used for charging the enemy wire. They cut the cable and brought back a large section of it.

Another patrol came on a German party southwest of Apremont and sharp fighting resulted. The Americans used their pistols, rifles and hand grenades

effectively and the Germans were forced to retire.

A corporal named Klick, from a New England state, carried out a "personal patrol" late yesterday afternoon. He crawled to the enemy wire to investigate what he thought was a periscope and saw a German step up to the firing trench. Bullets were exchanged but the American returned safely across No Man's land.

Ailments of Women.

There is no denying the fact that thousands of American women drag along day in and day out suffering with these ailments peculiar to their sex, which make life a burden. If women who suffer from dragging-down pains, inflammation, ulcerated or catarrhal conditions would only give that greatest of all remedies, Lydia E. Pinkham's Vegetable Compound, a trial, they would readily find relief from such suffering, as the many letters of commendation constantly being published prove.—Adv.
